Overall System Order (Net Grand Totals)

OTC	54,420.00
Monthly	81.00

Notes:

- 1) All hardware and software list prices are effective as of 08/10/2009, and are subject to change without notice. Prices do not include any applicable recycling fees.
- 2) Maintenance prices shown are reference prices (ESA - US Only) and are standard level of service.
- 3) All removed parts belong to IBM on any upgrade or Return Parts transaction.
- 4) Informational totals are calculated based upon current list and/or reference price and do not reflect the prices actually paid by the customer.

Configuration Summary

Base starting-point prices show only the recurring charges.

Messages and Comments

Configuration Comments:

Created on August 11, 2009 at 11:21AM by jhudlow

This configuration is based on your input. Please assure you have the hardware and software needed for your development environment. Please be advised that any eligible additions made to this configuration after the order has been placed that are less than \$5,000 list, will have to be processed as a 50% discount/purchase or 35% discount purchase depending on the CPU Model and will not be added to a leased machine/order. All applicable local/state taxes will be added to the purchase/lease price. Warranty for the system unit is one (1) year. Other hardware component's warranties range from three months to one year depending on the product. If you wish to purchase hardware maintenance, so the machine goes on maintenance after the warranty period, please contact IBM Global Services at 888-426-4343 or ask your Techline Specialist for assistance. Maintenance cannot be discounted or included in your lease. **All machines are customer set up.** No post sales support is part of the developer offering and must be sourced through 888-426-4343, opt. 3 at commercial pricing. If you are purchasing you may be required to pay partial or full amount at the time of the order. If you are leasing, you may be required to pay a deposit at the time of the order. IBM will accept your order (via purchase order, e-mail or other) subject only to the terms and conditions contained in the IBM Customer Agreement and any other IBM and/or IBM Credit Corporation agreements and documents that may be appropriate to your order. All sales are final. If you should encounter any hardware or software problems, normal IBM warranty provisions will apply.

If you would like to have this equipment placed on order as the configuration shows, please reply by returning this configuration with your concurrence. Thank you for your continued interest in IBM products and services.

*** This is a POWER SYSTEMS MACHINE - Please see System comments for the Operating System(s) ordered ***

Configuration Summary

This configuration contains services that must be proposed using the IBM Services Assistant Tool (ISAT) To request a Services Proposal from ISAT, within e-config right-click the CFR icon under the SYS icon in the Portfolio list and select Request a Services Proposal.

IBM Systems Director Information Center is at
http://publib.boulder.ibm.com/infocenter/systems/index.jsp?topic=/director_6.1/fqm0_main.html

IBM Systems Director management server and agent components can be downloaded from the IBM Systems Director download web site at

<http://www.ibm.com/systems/management/director/downloads/>

IBM Systems Director Activer Energy Manager is available with a free 60-day trial and can be downloaded at

<http://www.ibm.com/systems/management/director/downloads/plugins.html>

The following products/features are affected:

8203-E4A: Server 1

'Do Not Need an HMC' has been selected.
Customer Requested Arrival Date: 2009/08/24

System 1 - Comments - (Server 1)

75. **CONFIGURATION CONTAINS IBM i AS PRIMARY OPERATING SYSTEM**
Build to Order
Internal Load Source
SAS/SATA integrated controller
Integrated Dual 10/100/1000 Mb Ethernet ports
Three USB Ports
Two Hardware Management Console (HMC) ports
Service processor
Two System (serial) ports
Redundant cooling
Hot-swap cooling
Two SPCN ports
